EV SSL Certificates – Feature comparison

Why pay more for less?

Comodo Extended Validation (EV) SSL certificates are technically identical or stronger, come with more value-add features and cost less than those offered by our competitors. Each certificate is validated according to rigorous Extended Validation guidelines; features high strength 2048 bit digital signatures and comes with unlimited server licenses. In addition to turning the address bar green in all modern browsers, Comodo EV SSL also comes with a free Corner-of-Trust Logo to immediately build trust into your website and help convert visitors to customers.
